Aryan Mishra

DATA ANALYST | DATA ANALYTICS | BUSINESS INTELLIGENCE

Prayagraj, Uttar Pradesh, India • +91 9648261916 • aryan34575@gmail.com
LinkedIn: linkedin.com/in/aryan-mishra-817101413 • GitHub: github.com/aryan34575-droid

PROFESSIONAL SUMMARY

Data Analytics-trained Mathematics graduate with hands-on project experience in spreadsheet analysis, data exploration, financial performance analysis and GenAI-powered analytics. Skilled in working through the analytics process—from understanding a business question and preparing data to analysing trends, developing visual insights and communicating findings. Completed data analytics training and applied analytical concepts across independent projects and an industry job simulation.

TECHNICAL SKILLS

Tools: Microsoft Excel • Power BI • SQL • Python

Data Analytics: Data Cleaning & Preparation • Exploratory Data Analysis (EDA) • Data Visualization • Dashboard Development • KPI Analysis • Trend & Variance Analysis • Financial Analysis • Business Insights • Reporting

Analytical Practice: Problem Definition • Pattern Identification • Data Interpretation • Insight Communication • GenAI-assisted Analytical Workflows

PROJECT EXPERIENCE

Aryan Data Analyst — Personal Analytics Project

Developed a project focused on AI-assisted Excel/CSV analytics workflows, including data inspection and preparation, KPI insights, interactive dashboards, anomaly detection, executive-style reporting and Power BI-ready outputs.

Tata iQ — GenAI-Powered Data Analytics — Forage Job Simulation

Completed a scenario-based job simulation focused on credit-card delinquency risk for Geldium Finance. Worked through the business context, exploratory-analysis considerations, potential risk signals and responsible, data-informed recommendations. This was a job simulation, not employment or a paid internship.
